cran_convert	<i>Convert Volumes To Units Of Uncleaned Herring</i>
--------------	------------------------------------------------------

Description

Converts a supplied volume measurement to crans.

Usage

```
cran_convert(value, unit)
```

Arguments

value	Numeric. The value of the measurement to convert from.
unit	Character. The unit of the measurement to convert from. Must be a recognised volume unit as per <code>units::valid_udunits()</code> .

Value

An object of class `units`.

Examples

```
## Not run:  
# 170.5 L is 1 cran  
cran_convert(170.5, "L")  
  
## End(Not run)
```

cran_install

Install Cran Conversion

Description

Create the cran measurement unit. Asks for user input. Runs on startup.

Usage

```
cran_install()
```

Value

Nothing.

See Also

[cran_remove](#)

cran_remove	<i>Remove Cran Conversion</i>
-------------	-------------------------------

Description

Remove the cran measurement unit. Asks for user input.

Usage

```
cran_remove()
```

Value

Nothing.
